Helpful Tool

By Sara Urben

This is a great resource for any classroom teacher. The assessments are user-friendly and help you to quickly pinpoint reading difficulties. Unlike many other assessments, there is a comprehension piece in addition to expression and automaticity. I photocopy kids' results to share with parents; and the assessments are simple enough that parents are able to understand the results and practice specific skills with their child at home.

Why four, not five stars: They're more like five or six minute assessments once you actually write down all your notes. I've used them for awhile, and even with practice am never done in three minutes. I also wish there were more passages for each grade level. Overall though, a great book and one of my more often-used teacher resources.
