Alexander Alekhine was a two-time World Chess Champion and is widely regarded to be one of the greatest chess players of all time. During his best years he dominated tournaments, and in 1927 he defeated his great rival José Raúl Capablanca to win the world title. Alekhine was renowned both for his fierce competitive nature and his dazzling combinative play. He had a phenomenal ability to unleash combinations even from seemingly harmless positions, and he is undeniably one of the best attackers the game has ever seen. In this book, FIDE Master Steve Giddins invites you to join him in a study of his favorite Alekhine games, and shows us how we can all learn and improve our chess by examining Alekhine's masterpieces.

Alekhine review

By capakarpova

The games are obviously great but the author is only a fide master. He's not even an international master and to analyze the games of the fourth world champion who was a super Dynamic player who was very tactical and played a variety of openings demands a much stronger player to analyze these games.
