By Jerry

This is a great book. I have ordered other programs in the past such as fitness accelerator and better memory for passing exams and they helped me out pretty good. I thought for someone like my self trying to get the edge in the job market, the Covert Hypnosis would be just the thing. This program is loaded with a bunch of information that has already helped me in class. Being able to give teachers ideas that they thought was theirs in the first place really shocked me, but what really turns me on to this book is the fact I speak with more confidence. I think out what I say before I put my foot in my mouth. The book goes over things like cause and effect, tag questions, cue words, and so much more. The book goes into details on how each tool is used and explains it pretty clearly. I found it hard to believe how easy it is to sneak your own ideas into someone else mind. Studying psychology I learned about this type of process and always felt it worked better than the office type hypnosis that some people can fail to get help with the direct approach. Covert Hypnosis is easy to use without others knowing that you are using it on them. Now be aware that some people is very low IQ's may not be able to be hypnotized, but this style can be put to use any where. I knew of a law enforcement officer that talk a person out of jumping off a building using cue words that this book talks about. I have read with book and will study it again as there is so much this book contains that requires going back over, but it is worth the time. To be honest, I would have paid more for this book and it is a steal for the price. If you wish to find out more information on this book or other products that is offered google search or check out Mr. Hutton's videos on you tube. After trying Covert Hypnosis, you will agree that this is a must have book that you wish you would have had sooner. I am a happy customer you will be to.

I LOVE THIS EZ 2 READ AND FOLLOW BOOK!!!

By Geri

Hi I love this book it is EZ 2 read and is actually fun using these techniques also teaches me some things about myself and what I do or don;t do.

I **HIGHLY** suggest getting this book **NOW** while the price is not even close 2 what we get inside this book.

Fun part is practicing this..one step at a time..I am excited thinking about what this **NEW** language will do 4 me.

Thank U George 4 putting this book together and at such a phenomenally low price.

By Reotee Shanker

Excellent book, Each point is explained with examples that are lucid and easy to understand. I have other books about covert hypnosis, however this one beats all the others because there is no filler material included.

Thanks George for an excellent book
