Reading the e-book *Dark Run (Keiko) By Mike Brooks* by on-line could be additionally done conveniently every where you are. It seems that waiting the bus on the shelter, waiting the list for line, or various other locations feasible. This [Dark Run \(Keiko\) By Mike Brooks](#) could accompany you during that time. It will not make you really feel weary. Besides, this method will certainly likewise enhance your life top quality.

Review

"Golden Age chic! Great fun!" (Stephen Baxter , International bestselling author of *The Long Earth* with Terry Pratchett, and *Proxima*)

Brooks's terrific debut demonstrates that a good caper tale can take place anywhere, even in interstellar space. Capt. Ichabod Drift and the crew of the *Keiko* have an unusual approach to galactic law and order, one that ranks "convenience over obedience." All of them have secrets that they'd rather not reveal, but Drift's is the biggest of all: he was once known as Gabriel Drake, a notorious privateer. He thought he'd escaped his past, but now it has come calling in the form of Nicolas Kelsier, ex-minister of Extra-terrestrial Resource Acquisition for the European Commonwealth, and Drift's former boss. Kelsier offers him both the carrot and the stick: Drift can take Kelsier's smuggling commission and earn a handsome sum for himself and his crew—or have his past revealed to the Federation of African States and the rest of the galaxy. Even with elaborate planning, capers never run easily, and this one is no different. It will take all the skills of each of the *Keiko*'s crew members and some "outrageously ballsy chicanery" on Drift's part if they are to escape with their lives, let alone make a profit. Fans of rip-roaring space adventures will greatly enjoy this one. (Publishers Weekly March 7th, 2016)

Brooks has concocted a space opera full of fast talk, action, and gratuitous violence. Brooks delivers a old-fashioned space Western peopled with likable, flawed characters who gallop across an entertaining page-turner. (Kirkus Reviews March 31st, 2016)

Brooks turns in an enjoyable adventure that has all of the fast action and clever dialog fans of the genre look for, with well-drawn secondary characters who also have moments to shine. Suggest this debut to enthusiasts of caper plots and stories such as Chris Wooding's *Ketty Jay* novels, and, of course, *Firefly*. (Library Journal April 15th, 2016)

"Dark Run is a fun novel." (io9.com)

"Dark Run deserves to be this year's break out. A space opera in the rollicking tradition of Timothy Zahn, John Scalzi, James S.A. Corey, C.J. Cherryh." (Andrew Liptak B&N Sci-Fi & Fantasy Blog)

"[Dark Run] doesn't disappoint. With its fast moving action, wise-cracking dialogue and wry humour." (SFF World)

"Dark Run is a fast paced smuggler story that delivers all the crooked and devious action you could ask for." (SFBook Reviews)

"A pure scoundrel-centric tale that is worthy of the Serenity crew and will make any Firefly fan smile." (, Geek Dad)

"Wicked." (, Geek Mom)

About the Author

Mike Brooks was born in Ipswich, Suffolk in the UK and moved to Nottingham when he was eighteen to go to university. He's stayed here ever since, and now lives with his wife, two cats, two snakes, and a collection of tropical fish. When not working for a homelessness charity, he plays guitar and sings in a punk band, watches football (soccer), MMA, and nature/science documentaries, goes walking in the Peak District or other areas of splendid scenery, and DJs wherever anyone will tolerate him. And, y'know, writes.

Dark Run (Keiko) By Mike Brooks How a straightforward idea by reading can enhance you to be a successful person? Checking out *Dark Run (Keiko) By Mike Brooks* is a very straightforward activity. However, just how can many individuals be so careless to check out? They will certainly favor to invest their downtime to talking or hanging out. When actually, checking out *Dark Run (Keiko) By Mike Brooks* will give you more probabilities to be effectively finished with the efforts.

Do you ever understand the publication *Dark Run (Keiko) By Mike Brooks* Yeah, this is a very intriguing e-book to check out. As we informed formerly, reading is not kind of obligation task to do when we need to obligate. Reviewing must be a routine, a good habit. By reading *Dark Run (Keiko) By Mike Brooks*, you can open the brand-new globe and get the power from the globe. Every little thing can be gained with guide *Dark Run (Keiko) By Mike Brooks* Well in quick, book is very powerful. As exactly what we provide you here, this *Dark Run (Keiko) By Mike Brooks* is as one of checking out e-book for you.

By reviewing this book *Dark Run (Keiko) By Mike Brooks*, you will get the best thing to acquire. The brand-new point that you do not need to invest over cash to reach is by doing it on your own. So, exactly what should you do now? Go to the link page and also download and install the e-book *Dark Run (Keiko) By Mike Brooks* You could obtain this *Dark Run (Keiko) By Mike Brooks* by on the internet. It's so very easy, isn't really it? Nowadays, technology really assists you activities, this on-line book [Dark Run \(Keiko\) By Mike Brooks](#), is too.

DARK RUN (KEIKO) BY MIKE BROOKS PDF

In this debut space epic, a crew of thieves and con artists take on a job that could pay off a lot of debts in a corrupt galaxy where life is cheap and criminals are the best people in it.

The Keiko is a ship of smugglers, soldiers of fortune, and adventurers travelling Earth's colony planets searching for the next job. And they never talk about their past—until now.

Captain Ichabod Drift is being blackmailed. He has to deliver a special cargo to Earth, and no one can know they're there. It's what they call a dark run...And it may be their last.

Amazong, you should read it, seriously. Go back up to the top and buy it. Go. Stop reading. Go.

By MR Brown

It's fairly rare when I bother to do written reviews of books. I like them or don't like them to varying degrees and don't feel like it's important to tell people why I like them. That and I don't much like having to analyze a book I read for enjoyment because it wrecks it for me sometimes.

This book, I wanted to do at least a little something for. I don't think it's had enough praise personally.

There are a lot of people that compare this to Firefly*. It does have some of the things I valued most about Firefly such as the interplay of characters. You'll find a similar layout. A Captain that's got a past and a mostly stable moral compass...maybe it wobbles a little, sometimes. A strong female first mate or whatever you'd deem her, an amazing pilot, a talented engineer, and a mercenary. There are also characters that aren't exactly dups of the crew. Such as the tech wizard (I know sort of River, but not) and the gentle giant (sort of like Shepherd Book, but not). We have the tropes in other words.

Having said that, let me pause for a moment in this review (if you don't want to read my rant skip one paragraph). Some reviewers I have seen seem to think it's a sin or in some way degrading to note tropes in authors writing. Why? Tropes are an easy way for us puny humans to understand the world around us. They help writers build stable stories. The problem with tropes is when they are over used or too predictable. When EVERY \$#%& @\$*% *\$#@ &#\$# time you turn on the TV or open a book you find yourself SO UNGODLY BORED with the entire %\$&#ing universe because you already know how the book or show ends within 5 minutes of watching or 10 pages of reading. Some people prefer this and that's fine, for them,

for me, I need to be kept guessing. It's one thing to have a framework so you know, to move into the construction world for a moment, this building is going to be a rectangle and have 3 floors. However, If I open a book and already know, for the sake of the example, that there are going to be 3 bathrooms, 2 hot tubs, 65 windows, 35 doors, 6 different carpets coming in blue, green, turquoise, violet, puce and yellow (swatches with paint samples for each room available to the left). The siding will be an off blue and the shingles will be gray and slightly concave...then I don't really need to take your tour do I?

Anyway, review back on. I loved the interplay Mr. Brooks built into the characters. The silent histories he was able to fold in and expand upon as needed. For to my understanding a virtually new author to build such a beautiful interplay is amazing. I'm sure editing, alpha and beta readers will have had something to do with it, but you can do all the editing and rereading you want, but if the writer doesn't have what's needed in him or her to pull that information in and push it out better, then there really is no point and no help for it.

This is NOT a Firefly dup or knock off as I have seen sometimes, but I'd say it has a neighboring soul. I don't do the best reviews because I don't do them often, as noted at the beginning of this whole huge thing. The best I can say is if you haven't tried this book, you should. If you're good at reviews, do it. It's worth it, in my opinion.

* For those who aren't quite as much of a geek as me, Firefly was an American Space Western Drama series that ran from 2002-2003 on Fox written and directed by Joss Whedon. You may have a better idea of the world if you saw the 2005 film adaptation Serenity.

Fun read. Characters have a lot going on

By Amazon Customer

Fun read. Characters have a lot going on, and are the real center of the story. No deep ethical issues examined in any non-simple way, but the characters are plausible and interesting, and the story moves along. Good enough to want to read book 2.

I thought I would like Dark Run more

By F. Shifreen

I thought I would like Dark Run more, because I read an interview in Gizmodo with him. He envisages a universe powered by Alcubierre drives and no FTL communications, aged tech and space opera. I am always looking for good science fiction. I am old enough to have been young in the golden age. What is coming out now is generally so bad to be unreadable. I like some Vernor Vinge, some Peter Hamilton, a few others. Brooks writes snappy dialog and action, but his vision of tech becomes steampunk, whirring lenses on eyes, metal hands that owe more to a Victorian past than a possible future. That bothers me. I think digital is here to stay. Miniature tech that is disposable and available. Replacement eyes and hands in the future, including firearms would be smaller and smarter. It would not be the wild west moved into space, with big guns in holsters. So I could not buy into his vision because it depends too much on the past, not the future. I wish he had thought out the rest of his vision. To me the world view of a science fiction books colors everything. If the rationale is missing, the book does not work. Dark Run only so so
