From Library Journal

In his earlier books, Dobson, founder of focus on the family, wrote about topics ranging from the parental discipline of children to the relationship between husbands and wives. Here Dobson addresses the problems facing young adults between the ages of 16 and 26. Believing that life's most crucial decisions are often made during this ten-year period, Dobson offers his advice about finding God's will in the choice of a marriage partner, the quest for a profession, the control of money, and the establishment of self-esteem. Although the book records the voices of young adults through a series of questions and answers, Dobson's tone is often arrogant, his demeanor sexist, and his attitude narrow-minded. Still he has a large and dedicated following who will request this book.

Psychologist Dobson is one of the most successful--and because of his adamancy on the sinfulness of abortion and homosexuality, most controversial--Christian broadcasters via his daily program, Focus on the Family. On the strength of that success, Word is ordering a quarter-million-copy first printing of this adviser on love and life for young adults age 16 to 26. Full of personal anecdotes and great swatches of text from Dobson's previous books, presented in a congenial, colloquial manner like that of Dobson's speeches and radio commentary, it is basically sound, commonsensical, albeit stringent counsel. Dobson is foursquare for delaying sex until marriage, choosing a spouse carefully, and dismissing divorce as a way to solve problems. He admonishes his target audience to be faithful to their families of origin despite the stresses caused by the necessity of achieving adult independence, and he advocates Christian rather than state or private secular colleges for undergraduate education. Undergirding these major themes are a pretty fundamentalist Christianity, to be sure, but also a genuine counselor's understanding of human weakness and extension of sympathy. And despite the bad rap the Religious Right, of which Dobson is a prominent voice, gets, there is not a hateful word in the book. Convinced young Christians, especially those who don't fancy themselves sophisticated, will appreciate Dobson's manner as well as his matter. Ray Olson

amazing book

By Book reviewer 2005

You cannot beat this book for a teen or twenty something who needs advice for getting on the right track. While James Dobson is a traditional religious writer I feel that this book is down to earth enough to appeal to the intended age group. It is not judgemental. It just explains the benefits of making good choices. It also gives the information necessary to make good choices. It is so harsh that it would turn off a person who may not be as religious as the usual Dobson reader. Excellent reading and excellent advice. Could also be useful for older readers as well.

Must Have

By Mindy Collinson

I read this book twelve years ago as a teenager and have bought it for others since; it is a must-have for all teenagers and young adults. It is very easy to digest and devour even for the reluctant teenage reader.
