Review

"Without overly romanticizing justice work, *Practical Justice* is a great resource with a holistic perspective on justice by someone who is field tested. It truly spurred me to rethink justice beyond events and activities." (José Humphreys, Prism, 2007)

"Here is a prophetic new voice that will stir your soul and get your body moving. Kevin Blue offers an outstanding book on justice that tells it like it is--and much more. If you believe in justice and want to know what to do about it, this book is for you." (Dr. John Perkins, Founder, John M. Perkins Foundation for Reconciliation and Development, Inc.)

"Kevin Blue has written a book that is both prophetic and practical. If he had simply chosen to be either prophetic or practical this would have been a much easier book to read. As it stands, it is not an 'easy read' at all. And for that I am deeply thankful." (Don Everts, author of *Jesus with Dirty Feet* and *God in the Flesh*)

"Kevin Blue invites us to journey into the world of the oppressed and view reality from the underside. With sensitivity and candor he confronts us with injustices--both blatant and veiled--and offers redemptive and practical responses for those who would seek to practice biblical justice." (Robert Lupton, author of *Theirs Is the Kingdom and Renewing the City*)

"There have been many books written on urban ministry and on Christian justice. Most have been written by academicians or by missiologists. But *Practical Justice* is written from the vantage point of the streets, from toughs (and the vulnerable) 'hanging' with each other, and from the poverty and powerlessness of the homeless. Kevin Blue has been in street-level urban ministry most of his adult life. And through that ministry, he has come to a profound understanding of the ways both people and systems oppress, exploit and dominate the weak and vulnerable among them. In *Practical Justice* Kevin shares that understanding, fills it with biblical insight and proposes concrete ways you and I can work for the shalom of our cities." (Robert C. Linthicum, *Partners in Urban Transformation*)

A Mixed Bag

By Hannah Rose Williams

Make no mistake --- Practical Justice has a message that a lot of Westerners, especially Christians, should hear. Those who don't want to hear it may not like this book. Those who don't need to hear it, like me, agree with the message but find it rather repetitive. I get the impression that Blue's next book will be better.

Balanced Yet Prophetic

By Heather Zempel

Another home run in the new series of Likewise books from InterVarsity Press, Practical Justice introduces a balanced yet profoundly prophetic voice into the discussion of the role of the church and the role of the Christian to justice issues.

Kevin Blue, director of the Los Angeles Urban Project with InterVarsity Christian Fellowship, states in the first chapter, "No one who encountered Jesus was able to just ignore him. All went away disturbed." Reading this book disturbed me to the point of actually pondering for a few short moments if I needed to stop being a pastor and go back to working on Capitol Hill in order to really advance the Kingdom of God in the world around me. Kevin speaks from lots of personal experience and years of thinking through these issues, and I find his voice to be a refreshing addition to the mix of personalities involved in these discussions. I especially like the three chapters that explored the idiom, "Give a man a fish and he'll eat for a day. Teach him to fish and he'll eat for a lifetime." Kevin demonstrates that both are necessary and gives practical advice for how individuals can participate in both steps of that process. More importantly, he includes a third vital component-- fixing the pond-- to address larger systems and structures that must be changed in order to make a more complete and permanent impact.

While Kevin seemed to slip in and out of teaching, encouraging, and preaching, in general, I enjoyed his tone and easy to read writing style. I feel like I know a bit about his heart and personality after reading this book. The chapter on race and class seems awkward in its placement in the book. And his advice that Christians should have no political leanings seems impractical and impossible for those of us in DC who worked (or a currently working) within places in government that have the power to fix the pond.

With the exception of those two minor things, I really enjoyed this book. Kevin is balanced in his approach and yet prophetic in his call to make a change in our generation. The practical steps he offers seem valuable

to anyone at any point on their journey into understanding and working within justice and compassion issues. I also appreciate the value he places on making changes in our culture within the context of community and the chapter on not becoming what you hate.

Practical Justice propelled my thinking on this topic forward, and it gave me a new outreach idea for the community of groups that I lead. It would be a great book for a small group.

Decent

By Spudicus

I enjoyed the book a lot. As a freshman in college I started getting interested in this new Jesus that wants you to do stuff with your faith. This book was a great intro into the world of social justice. I found the suggestions offered throughout somewhat helpful, and at least a little challenging to me. There are lots of good quotes and ideas to be had, and I appreciate avoiding mere commentary and giving concrete ideas for directions to head.
