For over ten years, *Readings for Diversity and Social Justice* has been the go-to anthology for the broadest possible coverage of issues related to identity and oppression from a social justice perspective. This highly-anticipated second edition breaks even further ground, boasting over 40 more readings than previously available, updated and original section introductions, and three entirely new chapter sections on Religious Oppression, Transgender Oppression, and Ageism/Adultism. As with the first edition, each chapter section is divided into Contexts, Personal Voices, and Next Steps. The first two parts provide vivid portraits of the meaning of diversity and the realities of oppression. The third part challenges the reader to take action to end oppressive behavior and affirm diversity and social justice.

Added new features to this edition include:

- Over 130 readings, many new and updated, including three entirely new sections.
- A Table of Intersections that enables readers to identify all selections that treat issues of race, religion, gender, sexuality, disability, class, and age, beyond those in designated topical chapters.
- An all new companion website with additional resources, further suggested readings, and teaching materials is also available.

Offering over one-hundred and thirty selections from some of the foremost scholars in a wide range of fields, *Readings for Diversity and Social Justice, Second Edition* is the indispensable volume for every student, teacher, and social justice advocate.

Superb!

By Lisa A. Walter

This is a text book for a (master's degree level) class I'm taking on problems that face human service providers. The readings are eye-opening! As I read, I am confronted by my own hidden 'prejudices'; ideas about groups or individuals that I didn't know I had. I challenge anyone who believes they have no biases to read this book; it will bring many of your own biases and beliefs to the surface for you to grapple with. This should be required reading in every American high school where it would really impact young people's thinking and perhaps change the face of discrimination.

3 of 3 people found the following review helpful.

Excellent book with many outlooks.

By CoolGramma

This book has many, many different stories and articles on diversity that cover almost every cultural group that is in the United States right now. It is well written and edited and I would highly recommend it to anyone studying diversity in psychology or sociology fields. Be careful though if you are being taught from an older edition. This one is the 2010 edition, right up to date and has new articles in it but some articles from older editions are not included. It's a great book and you needn't be a seasoned reader with tons of psycho-jargon in order to understand a single article. I can't recommend it enough.
