Good Answers
By Chester
In this book, Ron Rhodes does an excellant job of outling the Muslim world view and the Muslim perspective on Christianity. He also poses questions that a Muslim apololgist might pose to a Christian and then proceeds to give historical, scriptural, and/or logical answers in support of Christianity.
The questions leveled at Christianity by Muslim apologists are often the same questions posed by other Non-Christian critics and since this book answers these questions with sound research and logic, the usefulness of this book goes beyond the dialogue between Christians and Muslims with respect to Christian theology,

historical validity, and interpretive integrity.

I thought this was a great source
By A. Lawson
I purchased this book as an added resource. Overall, I thought this was a great book, being a former Sunni Muslim there was a lot that I was able to relate to. In addition, many aspects of the religion that I was ignorant to, that were made clear such as History, and the bases of the fundamental beliefs. I enjoyed this book so much; I was able to read it in its entirety in a matter of days. The only aspects I did not really like, was the fact that at times, I felt that the Authors personal opinion, rather than a biblical perspective, was overly exerted. So anyone reading thins book needs to be well versed in the word of GOD, so that they do not get side tracked in feed into the opinions of man. Rather focus on the things of GOD; this is from where clarity comes.

very good for questions that will make even Christians think
By Ruth Sprague
This book is a "godsend", if I can put it "punfully". It details a history of Mohammed and the influences of his culture at the time and his personal life I didn't know. More than that, the book is very fair in stating how much more the Muslims in general venerate their Koran, while relegating the Bible to a secondary category, as they consider the Bible to be error-prone. The author takes all this into consideration, even though the title would suggest that one is only going to use the Bible for "reasoning" with a Muslim. Ron Rhodes is a fine Biblical scholar, and is known for many other books and articles.
From there, the author delves into the differences between the Koran and the Bible. With each chapter, there are questions in a rectangular box to ask a Muslim to make him or her start questioning some of the "truths" in the Koran. This is extremely helpful, and I really like this feature of the book. Even though other books are helpful, a witnessing tool like this really lays the groundwork for real communication, instead of merely "arguing past a Muslim", with no penetration whatsoever. I did do a review of another book, "Islam Revealed", by Shorrosh, and while it is a really good book for a perspective from a Arab Christian's point of view, "Reasoning" is really a more helpful book for actual witnessing. Even if a person of the Muslim persuasion won't accept some of the arguments, the questions will make even a stubborn one stop and think.
I understand Dr. Shorrosh's point that he tried to make in his book "Islam Revealed", because he became frustrated when he heard a debate between an uninformed Christian and Muslim, where the Christian lost the argument, in Dr. Shorrosh's mind. That was the reason for his writing the book "Islam Revealed", and it relates the debate that he partook in with the same well-educated Muslim, a Dr. Deedat, who had trounced the former well-intentioned, but misinformed Christian. It is a very good book, and I'm sure that any Christian interesting in witnessing would want "Islam Revealed", as it is a very well-known book now, but it comes up short with actual questions for witnessing helps.
This book, "Reasoning", not only shores up this shortcoming, it roars past it. Buy this book, it is worth your while.
