Only with the gadget that consistently be with your all over, you can read this book Spot Goes To The Farm Board Book By Eric Hill So, it will certainly be so promptly to finish reading this Spot Goes To The Farm Board Book By Eric Hill

From Publishers Weekly

Millions of readers have gone on a hunt with or for Spot in his characteristic lift-the-flap format. This book is almost as fresh as that first cry of "Where's Spot?" Here, he's looking for newborn animals on the farm with his father. After several false starts (a mischievous bunny "tweets" behind a bush, the horse hasn't foaled yet), Spot moves in on some piglets and then a few kittens. Telling Mom about it when he gets home is part of the fun, too. Bright colors reveal a hunt that is full of surprises. Young readers will welcome this new Spot book and hope his curiosity doesn't wane. Ages 1-6.

From School Library Journal

PreSchool-K Puppy Spot visits his tractor-driving dad on the farm. Dad sets out to show Spot some baby animals. Spot runs here and there, looking in the barn, in the stable, behind fences, and under bushes for the baby animals. He finally finds the piglets that Dad wanted to show him. Spot then finds and shows Dad some baby kittens in a laundry basket. The bright colors, simple text, and large print on heavy paper make the book attractive, but the lift-up flaps (barn doors, bushes, and gates) which open to reveal more animals are not practical for a circulating library collection. A good choice for use in a preschool story hour, though. Eldon Younce, Harper Elem . School, Kans.

Bad Spot Book

By running mom

This is an awful Spot book. Spot and his Daddy go looking for an animal that had babies on the farm. The story refers to the animal names "foal", "calf", but never the animal names (horse, cow). Kind of confusing for a young preschooler. Plus a bunny says "tweet, tweet". Its suppose to be joking, but for a 2 year old its just a bit confusing.

9 of 11 people found the following review helpful.

Awful. Just not worth it.

By Sarah G

We love "where's spot." We love the simple plot line, the repetition and the short, concise, predictable answers.

Other than the fact that this book has Spot and flaps, it has nothing in common with the classic "where's spot." For a book with flaps, the plot line is complicated and the answers behind the flaps are long and inconsistent. It barely makes any sense.

We read a lot of books to our daughter, but we read this once and it was so dumb we returned it.

If you love "where's spot" and you're looking for another book like that, don't buy this.
