Mind Expanding

By TerryM

This is not a book on "How to get laid" it is about becoming an authentic man who is a true lover of women and the beauty found in all of them.

As soon as I began reading it, I was completely engrossed and didn't stop until completion.

Relationships NOT for Dummies

By Glitzie

Tao Of The Gigolo is not the read I feared. It does not delve into a pseudo-academic psychoanalysis of the women who retain the services of male escorts, and it is not a "how to" for the aspiring gigolo. Tao is more

of a philosophical discussion about relationships and given the word "relationship" and what constitutes romantic love carry different freight for different people; Tao offers more for those approaching it with intellectual and emotional curiosity. While written almost exclusively for men, the female reader who struggles with understanding and achieving a modicum of success with the male human stands to benefit from it. For men interested in mastering the art of manliness and seduction, Tao should be your bible. Those skimming the rich narrative in search of five bullet points to score a hook-up needn't bother.

Learn how to speak truth to (sexual) power.

By G-Unit

"To those who do not hear the music, the dancer appears insane."

This book will entice you. This book will seduce you. It will beguile and enchant. It will incite you and prompt debate. It will cause you concern and provoke flashes of inspiration. In the same way a run away romance will sweep you off your feet, this book is difficult to put down. The Tao of the Gigolo itself is an example of seduction. If you are coming to this from the right place, you will power through it like I did. For those of you who seek truth, this book will provoke you the deep 'YES' that Vin has so clearly articulated in such a wide range of areas of human relationships.

The mark of someone who offers true value, is one who understands how to share it. For less than the price of two beers at a bar, Vin sits down with us and shares with us his lifetime of knowledge. He opens the door to a world many of us know little about. He presents his ideas in a clear, straightforward and easily digestible manner. Like all great texts, the book is short and to the point. Read this and grow stronger.

Thank you Vin.
