Review

“This book is an amazing resource for hand-dyeing using natural materials and crafting with the results. If you’ve never dyed before it will give you the bug, and if you’ve tried some dyeing projects in the past you will definitely want this book on your shelf for reference and inspiration.” (About.com (5 stars))

“Kristine’s book breaks down natural dyeing from both a scientific and creative perspective, making the process (which has always seemed intimidating to me) feel as approachable as it is beautiful. I love the projects in the book because, in addition to learning basic dye formulas and techniques, the DIY ideas are a nice balance of classic and contemporary. From cool, blousy shirts (that would look at home in any hip boutique) to table linens and pillows, The Modern Natural Dyer is a great way to dive into the world of dyeing.” (Design*Sponge)

“The Modern Natural Dyer is a terrific primer for anyone new to the technique. Kristine walks you through the ins and outs of the process, from defining what scouring and mordanting mean to helping you learn how best to achieve desired colors.” (DIY Network)

“Vejar’s lovely book is very sophisticated and detailed.” (Library Journal (starred review))

About the Author

Kristine Vejar is the owner of A Verb for Keeping Warm, a popular yarn store and natural dye studio in Oakland, California. A Fulbright scholar, she began her intensive study and practice of natural dyeing nearly two decades ago in India.

THE MODERN NATURAL DYER: A COMPREHENSIVE GUIDE TO DYEING SILK, WOOL, LINEN AND COTTON AT HOME BY KRISTINE VEJAR PDF

Thousands of natural materials can produce glorious color—the insect cochineal produces pink, maroon, and purple, and more than 500 species of plants produce indigo blue. Now, in *The Modern Natural Dyer*, expert Kristine Vejar shares the most user-friendly techniques for dyeing yarn, fabric, and finished goods at home with foraged and garden-raised dyestuffs as well as with convenient natural dye extracts. Demystifying the "magic," Vejar explains in explicit, easy-to-follow detail how to produce consistent, long-lasting color. With stunning photography of the dyes themselves, the dyeing process, and 20 projects for home and wardrobe (some to knit, some to sew, and some just a matter of submerging a finished piece in a prepared bath), *The Modern Natural Dyer* is a complete resource for aspiring and experienced dye artisans.

Think about it first

By Lori A. Gonzalez

Modern Natural Dyer has an appealing cover and photographs. I wish it would have included a wider variety of dyestuffs. There are about 24 included. Another issue I had, and I should have anticipated this, was the amount of space used for the projects. It is my opinion that if you are at the point where you want to dye your own fabric and yarn, you either already have a project in mind or can figure it out. Pages exclusively dedicated to a picture of the project or knitting and sewing instructions are about 43 pages of a 192 page book.

On the good side, specific weights and temperatures are provided, as well as a dye chart for cochineal, madder, quebracho red, cutch, rhubarb, weld, fustic, pomegranate, and walnut, for both cellulose and protein, in different concentrations of dye as well as the chalk vs wheat soak for cellulose. If only the projects could be switched out in favor of more dye charts!

The provided dyeing/scouring/mordanting instructions are clear, and make the information accessible to the beginner.

So, I think this book will be great for some, and 'ok' for others. Try and look at a copy before you purchase.

Beautiful introduction to natural dyeing

By Jennifer

This is a stunning book. Amazing photos, insightful background information, clear instructions, and beautiful projects. The real strength of this book is its practical nature - it is like a recipe book. Kristine provides careful measurements of all ingredients for all of the steps in the projects presented - from scour, to mordant, to the "goods" (fabric, yarn, etc.), to dyestuff. She also gives plenty of information about how to make substitutions. Emphasis is placed on how various fiber types respond to dyeing, documented by shade card photos of different dye concentrations on protein and cellulose fibers. There are sections on using whole dyestuffs, natural dye extracts, and indigo, all of which have their own processing requirements. I also have Wild Colors by Jenny Dean, which is a great companion if you want to learn more about growing and harvesting whole botanical dyestuffs. I highly recommend the Modern Natural Dyer to anyone who wishes to learn more about natural dyes, experiment with natural dyeing, and/or work through various projects inspired by these amazing colors. Project kits are available on the A Verb for Keeping Warm website - I really want to make the sewing kit and the cochineal-dyed socks. Congrats, Kristine, on an amazing book!

Beautiful but lacking in substance

By Abigail B.

As others have noted, this is a really gorgeous book full of stunning photographs. As an introduction to natural dyeing, however, I find it to be a bit lacking. Sure, there is a clear overview of the dyeing process.

But I find that a lot of information and specifics that I'd like to know is lacking. For instance, I wanted to know more about overdyeing and what to keep in mind, but there's no real information. There's also not much information about how to work with plants beyond those used in the projects. And, on the whole, this book really is about the projects. So, if you'd like to make the projects shown or you'd like to walk through them as a learning process, this might be a good book for you. But if you'd like an introduction to natural dyeing or a reference book for your dyeing, I would not recommend this book. It lacks comprehensive and accessible information for the beginning natural dyer.
