True Undefined Wisdom...

By Eric

Coming straight from the mind of a Satanist, I myself am highly impressed with this book, as I usually do not gravitate much towards other so-called Satanic literature other than the usual prescribed books within the venues of the Church of Satan, unless of course, I feel it may hold water. But this, "The Satanic Predator Within: Awakening to the Self" was the exception. As I was gleaming through its pages, I was truly awestruck. This book was quite an intriguing read, which contains in my own conclusion, "true" Satanic thought, alongside insightful and valuable practices within the kingdom of both "Lesser" and "Greater" magic. I highly recommend this book!

Good source of basic information.

By Amber Mueller

I compliment the author on making a source of information on this topic available to the masses. The information will prove useful to someone who is new to Left Hand Path thought and/or the predatory

instinct. If you are a natural predator or a seasoned LHP practitioner then the information will be too basic. The book was written towards a male audience to the extent that it could prove alienating to females.

An essential core for the Satanist...

By Chester

True Satanic Perspective from one who lives by his words, who talks the talk as well as walks the walk, sincerely living the Satanic Life.

The Path of the Predator section is essentially what you might consider as a guide for the Satanic Warlock. Many Satanists have often asked “when is their going to be a “Satanic Warlock” book for men?” Well here it is, a section dedicated on this premise. A guide for men to take full advantage of their natural power within, through various approaches such as using the “tongue” to manipulate those around them in order to have their desire(s) magnified, which the author calls: Gathering a Unified Belief. Further the author adds what you might want to call “accessories” to assist in the molding and shaping of the minds into a state of belief, such as choosing the right clothing, colors, jewelry, etc., atop in which the Predator should present himself; the way in which he should move, look, and more.

The Path of the Magician combined with The Path to Metamorphosis and The Path to Manifestation sections are what the author would consider as a primer of advanced knowledge dedicated to the hallmarks of Satanic magic, philosophy, misanthrope, pragmatism, and more. These sections all belong to one another and are unique in their own way, but all contain many things in common. All three sections also provide a blend of various “practices,” for the Satanic aspirant to experiment with, in order to properly illustrate desire through proper awareness and understanding of bioelectrical energy.

The last section, Into the World of Renewal contains a blend of different “worlds of experiences” that the author has experienced, in which he subtly states underneath his words, a deeper, hidden meaning of the world of a Satanic Sorcerer.

All in all, The Satanic Predator Within: Awakening to the Self, is an essential core to the Satanist’s library, which is a must have for any who wish to evolve.
