The essence of *The Secret* changed my life!

By Shelley B

I believed in inner power and the substance of the Universe, however my life was still extremely frustrating

at times and i didn't know why. Several years ago somebody recommended the DVD of The Secret to me so i went with it and, after watching it, felt totally inspired, so much so I handed my notice in at work to develop myself.

A couple of years later and the biggest change was in my mind and mental outlook on life. The Secret set me on a journey of discovering the original new thought authors from late 1800's and slowly, but surely, I have seen changes. Last year I discovered two authors and everything clicked into place, namely Neville Goddard and Joanne St.Clair. These authors really heightened the journey of discovery which The Secret set me on, resulting in a six figure lottery win earlier this year.

I would definately recommend this book and the DVD, but just sticking to this and nothing else is not enough. If you really want change you must keep discovering your inner Spirit and its relationships to life. Neville taught me more about the imagination and its use, and Joanne St.Clair put it all into perspective in a very modern and down to earth way.

Enjoy.

Don't tear it apart!

By Xrayvision

We all need reminders from time. This is a compilation of daily inspirational messages. I recommend do NOT tear the pages out. I use a little bookmark and can keep reading them on a daily basis, year after year. A little stimulation at the start of each day can go a long way toward paving a path to wholeness.
