Maybe Udemy can allow me to take my business to the next level.

By MartinaJ

Wow this program is big, a lot of potential!!! I have heard about Udemy from a few YouTubers and did not know what the name meant so I decided to find out more about this subject. Udemy seems to be a great platform for people to share their knowledge with other people and the best part both parties don't have to

leave their homes. The instructors records their training sessions and their students can watch these recordings in the privacy of their own home via the internet, at a small price. Amazing for both the instructors and trainee.

All the information I need about Udemy is in this book which allows me the opportunity to evaluate if this is something I would like to get into to take my business to the next level.
