Wonderful animal set!

By Roberta Hoyt

I just bought a set of these at a swap meet. So far, I haven't been able to stop looking at them. No doubt these are meant for kids, but the information given is scientific and thorough. Each animal is photographed several times and there is a range map showing where they live. It tells you about their habitat, what they eat, when they breed and all kinds of interesting information about animals I didn't know existed! I recommend these for anyone who loves animals, not just kids!
